💻 [My website](#)

PhD-trained epidemiologist with 8 years of experience in large-scale quantitative research in clinical trial, psychiatric, and chronic disease.

Core Skills

- **Real-world Evidence (RWE) & Health Outcomes Research**
First-author of 8 publications in high-impact journals
 - **Biostatistics & Data Science for Large-Scale Healthcare and Genetic Data**
Expert in analyzing nationwide medical datasets (>15M participants) and applying advanced methods (e.g., mixed models, Cox regression, genetic methods).
 - **Programming: R, SAS, SPSS, Linux** (reproducible workflows & pipeline optimization)
 - **Project Management & Stakeholder Communication**
-

Professional & Educational Experience

PhD Researcher | Genetic Epidemiology & Psychiatry (Full Scholarship)

University of Groningen (Top 100), Netherlands | 2021 – 2025

-Designed and conducted large epidemiology studies on autism and health outcomes.

-Applied genetic epidemiology, causal inference, and longitudinal models to generate real-world evidence (RWE).

- First-author of 5+ publications in high-impact journals (*Translational Psychiatry, Autism, Environmental Research*), findings featured in [public media](#).

Master's Researcher | Epidemiology & Health Statistics (Full Scholarship)

Sun Yat-sen University, School of Public Health (Top 5 nationwide), China | 2017 – 2020

- Led randomized controlled trials (RCT) evaluating effects of mobile-health interventions.

- Conducted longitudinal and mediation analyses; first-author of 3 publications in peer-reviewed journals, such as *Journal of Medical Internet Research*.

Bachelor | Preventive Medicine

Southern Medical University, China | 2012 – 2017

Research Analyst Intern

Jiuqian Consulting, China | 2023

- Reviewed scientific and market literature to generate actionable insights that supported business strategies and healthcare client decisions.

Research Project Manager

Sun Yat-sen University, China | 2020 – 2021

- Managed RCTs on post-surgery recovery.

- Led cross-functional collaboration with clinicians, patients, and healthcare stakeholders to translate findings into practice.

Statistics Consultant

Sun Yat-sen University, China | 2017 – 2020

- Provided statistical consulting for healthcare projects (HIV, clinical disease, etc.).
- Developed and implemented reproducible analysis pipelines for large health datasets.

Teaching Assistant

Sun Yat-sen University, China | 2018 – 2019

- Taught *Medical Statistics and SPSS* to undergraduate students.

Selected Publications & Presentations *(Full list on [Google Scholar](#))*

- Li, Y. et al. (2025). Familial co-aggregation and shared heritability between clinically diagnosed neurodevelopmental problems and cardiometabolic conditions: a nationwide register study across three generations. (Under 2nd round review by *Nature Mental Health*)

- Li, Y. et al. (2024). Shared genetic architecture and causality between ASD and IBS/pain/fatigue. *Translational Psychiatry*

- Li, Y. et al. (2023). Longitudinal effects of environmental noise on ASD/ADHD. *Environmental Research*. Featured on [public media](#).

Oral and poster presentations at international conferences (Epidemiology & Social Psychiatry Congress 2024; Behavior Genetics Association Conference 2024).

Selected Awards

China National Scholarship (Top 1% nationwide graduate students, 2019)

Graduate Scholarship (2017-2019)
